

INTRODUCTION.

HealthHub Clinics, the healthcare division of the Al-Futtaim Group, launched their medical clinic within the premises of the Landmark Group's Corporate Headquarters at Dubai Marina for its employees.

The in-house clinic is a part of the organization's "My Health First" programme dedicated towards employee health and wellbeing. The newly opened clinic provides primary care services, management of chronic diseases and preventive care at zero co-pay on consultation and pharmacy – for not only every Landmarker but their dependents too. The clinic will cater to common primary care concerns such as colds, sore throat, infections, respiratory ailments and dermatological issues along with common chronic disease management issues covering diabetes, hypertension, and lipid management.

1.2. Purpose and the use of the project. what can be achieved using this.

HealthHub is a hub for continuous care. We provide accessible, integrated health management supported by smart solutions in a casual, happy and insight-driven environment. With a family doctor who knows you, knows your medical history, who you can ask anything and who is always just a message away you have a true family doctor.

Our lifestyle greatly impacts our health. We want to inspire and encourage wholesome wellbeing. We promote active and healthy lifestyles that is good for you.

1.3. Overview.

As partners to your well-being, HealthHub Clinics by Al-Futtaim and part of Al-Futtaim Health, we ensure that you always have access to the best medical services and facilities. It's a new way of healthcare designed to meet your needs with a complete range of Smart Healthcare solutions.

As a multi-speciality clinic, we offer the best medical expertise in specialised treatments, from ophthalmology to endocrinology. What makes HealthHub Clinics different is the right combination of advanced diagnostics, proven medical expertise and specialised services that work together for your well-being.

The Advantages and Disadvantage of the health hub medical clinic

Advantages Of After Hospital Care Services

By Absolute Care & Health / 30 November 2022 / 5 minutes of reading

Transitioning from hospital care back to home life can be difficult. After hospital care services bridge the gap between professional medical care and recovery at home, allowing you to focus on what's most important—rest, recovery, and rehabilitation.

After hospital care encompasses a range of healthcare treatments, wellbeing adjustments, and other services that help people adjust to life post surgery. By outsourcing these services to clinical and care professionals, rather than relying on family members, care recipients can enjoy a faster recovery.

Are you looking for comprehensive after hospital care services? Absolute Care & Health offers a holistic range of post surgery home care services. For the highest levels of care, supported by years of experience and industry knowledge, look no further.

1. Healthcare services

After hospital care begins with high quality nursing. Post-surgery nursing is the conduit between hospitalisation and full recovery, giving patients access to quality services in the comfort of their own home—an absolute necessity on the road to recovery.

Comprehensive at-home nursing services include nurse assessments, wound care, cervical collar care, sutures and staples removal, continence care including catheter changes, medications, and injections.

Our nurses can assess your care plan and if needed, liaise with your hospital or GP to ensure the care we provide is aligned with any other treatment you are receiving.

While family and friends can be a great support, it can speed recovery and ease the burden to have the professional support of qualified nurses and personal care attendants at your service.

2. Wellbeing adjustments

Facilitating your physical recovery is only one part of the healing process. Your mental and emotional wellbeing is just as important, and can help you recover faster. After hospital care services can be tailored to offer you support outside of medical assistance.

Your mobility and transport around the home and local community can help you get in touch with your life before your hospital stay.

Home modifications can make everyday tasks like bathing and using the bathroom much easier on your body as you recover.

As always, it is important to reach out to your close family in your time of need. While our after hospital care nurses and personal care assistants help you get settled, your family can help you get back to your normal life once again.

3. Household tasks

It's the little things that help you recover. Your time in post surgery home care should not be taken up by everyday, mundane tasks. Your road to recovery can be made shorter by spending more time focusing on yourself, and outsourcing household tasks to a dedicated carer.

4. Tailored care

When it comes to recovery, the best results come from a holistic approach. At Absolute Care & Health, we want to ensure that all care recipients, regardless of their post-surgery status, can expedite their recovery. This means providing a well-rounded service that caters to all patients.

DISADVANTAGES OF HEALTH HUB MEDICAL CLINIC

Not all hospitals are up to the task, clean, or efficient. The food is generally lousy. The clothes they have you wear are less than stylish. You are limited to what you can do, who you can see, when you can see them, and both smoking and drinking are not allowed.
